She will be transferred. She will only stay at St. Joseph's for 3-5 days. When she gets transferred I will get the new visiting and calling schedule. Her code for visitation at St. Joseph's is 0213 if you don't already have it.

I called Francis at New Life to make sure they were taking care of everything for her still. They I will tell her to call her school but I can do it too if you give me the name of the school.

Hi Nick,

Thanks for seeing her and letting me know she is safe and doing better. Will she stay at the same hospital or will she be transferred to Harris County Psychiatric Center? We will be out of town for a week and return late on the 22nd. Jenny does go to school and this is finals week. Please remind her to call her school. I will tell her when she calls me.
